

The image shows the ParaView 5.4.0 application window. The main 3D view displays a complex molecular model with blue and green spheres representing atoms, set against a blue and green surface plot. The title bar at the top of the window reads "TTK 0.9.4 - ParaView 5.4.0". Below the window, the macOS menu bar is visible with options: "File", "Edit", "View", "Sources", "Filters", "Tools", "Catalyst", "Macros", and "Help". At the bottom of the screen, a status bar indicates "built-in:". On the right side, a "Properties" panel is partially visible, showing tabs for "Properties", "Display", and "View (Render Vi". A "Close" button is located in the bottom right corner of the window.
